

## Video 25 Plus FB Fluid head

The Video 25 Plus FB is the featherweight that handles heavyweight cameras and camcorders. One of the fluid heads most frequently used by international television crews, it is easy to see that this head was created for combination with Pedestals Combi and C III.

The Video 25 Plus FB is unusually light for a studio / OB head. Its assembly lock mechanism lets you set up your equipment safely. It features horizontal and vertical brakes that are conveniently located and easy to reach. The 4-hole bores are standard for TV equipment and allow you to use the head on all tripods with flat base.

### Technical Facts

Weight	4.5 kg / 9.9 lbs
Payload	8 - 35 kg / 18 - 77 lbs
