

# Scart RGB/Composite to XGA Converter

Operation Manual

## Introduction

Thank you for purchasing CM-345S. The product you have purchased has been carefully engineered and manufactured to bring you dependable operation. Read this manual before operating this unit to get familiar with its features and obtain the performance that will bring you a lot of enjoyment for many years. Please retain this manual for future reference.

## Precautions

When use this product, basic safety precautions should always be followed to reduce the risk of fire and electric shock, including the following:

Read and understand all instructions marked on this product.

To prevent fire or shock hazard, do not expose this product to rain moisture. Do not use near a bath tub, wash bowl, sink, or laundry; do not use in a wet environment or nearby a swimming pool.

To avoid electrical shock, do not open the case of the product.

Operate this product using only the power supply included with it or provided as an accessory. If you are not sure of the type of power supplied to your home, consult your dealer or local power company.

Do not overload electrical outlets or extension cords as this can result in fire or electric shock.

The unit should be situated away from heat sources such as radiators, fireplace, etc.

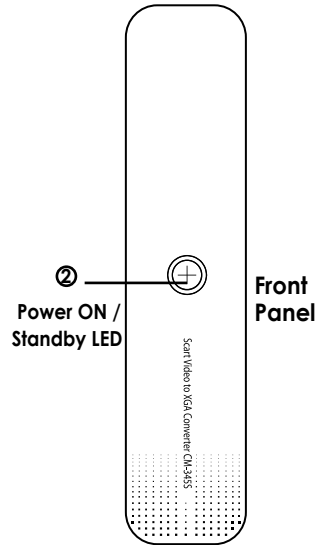

## Features:

- \* High quality video scaler.
- \* Supports SCART RGB/Composite input.
- \* Supports PC output resolution up to XGA(1024 x 768).
- \* 50/60 Hz frame rate conversion ensures glitch-free display of PAL source on any monitors.
- \* 3D motion adaptive de-interlacing ensures jaggy-free picture.
- \* Adaptive non-linear noise reduction.
- \* Adaptive scan rate conversion.
- \* Luminance/Color Transient improvement.
- \* OSD Controls: Brightness, Contrast, Tint, Color and Sharpness adjustment.

## Package Contents:

- \* CM-345S.
- \* 15pin D-Sub to 15-pin D-Sub cable X 1.
- \* 2-RCA jack to 3.5mm phonejack audio cable.
- \* Remote control.
- \* Power Adaptor: 12V 800mA center-positive.
- \* Instruction manual.

## Operation Control and Functions Top Panel

### ① Power button:

The unit enters into standby status when 12 V DC power is fed into the power jack on the back panel . Press the power button to turn on the unit ( LED illuminates in green color ); press again to return to standby mode ( LED illuminates in red).

### ② Power ON / Standby indicator:

When power button is pressed, the unit is turned on, and the LED illuminates in green color. The unit is then ready for operation. When the unit is under standby mode, all control buttons will not function, Only the PC input is looping through to the VGA output.

### ③ Input Selection :

Press the button to select between SCART input and PC-loop through. When scart input is selected CM-345S will automatically detect the SCART input as a RGB signal or composite video signal.

### ④ MENU / ENTER :

Press the button to enter into OSD menu or to confirm your selection of the highlighted parameter.

### ⑤ + / - :

When in OSD mode. Press the button to move up or down the highlight bar to your desired parameter. Or after a parameter been selected by MENU/Enter button, press the button to alter the value of your selected parameter.

## Rear Panel

1. Power socket: 12V 800mA DC input.
2. Scart RGB or composite video input connector. \*
3. Audio out: Stereo audio L/R output.
4. PC audio in: 3.5mm PC audio input.
5. PC in: 15-pin D-Sub PC VGA input.
6. PC out: 15-pin D-Sub PC VGA output.

### \* Scart pin configuration
