

Reporter 270DI

Battery-operated daylight luminaire

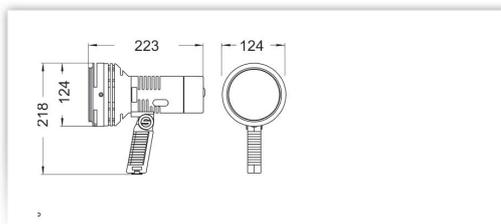

This compact open face daylight lamp produces non-flicker daylight with high light efficiency. The patented "No-noise" ignition system lets you work silently. Oversized ignition coils avoid electrical loss.

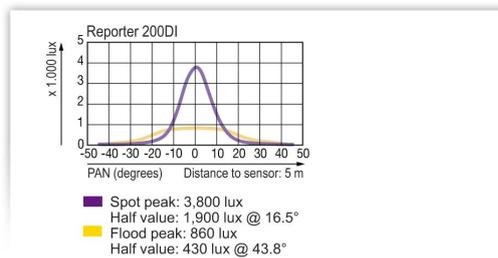

The Reporter 270DI is the most powerful battery operated light on the market, offering an outstanding light performance of more than 9,000 lux (from 5 m) in the spot setting.
