# HS-600

Datavideo HS-600 is a light weight Standard Definition video studio, which combines an eight input switcher, with a talkback system, multi-view 17-inch high quality LCD screen.

The system is powered from a power distribution system, which provides a secure power supply to each device from one connection.

The HS-600 is designed to excel and meet your demands whether you're working in worship, education, conducting a live outside broadcast or shooting inside a production studio. It enables you to switch seamlessly between video and audio sources and blend high-quality digital content on the fly, even without external genlock, thanks to the built in time base corrector.

The Datavideo HS-600 is a one box solution designed to be "live in seconds".

## FEATURES

- Complete integrated solution with six Composite Video, and two DVI-D inputs.  
Optional DV Board also two DV25 (IEEE-1394) inputs
- Autoswitchable 4:3 & 16:9 inputs
- Three Composite Video and multiple Auxiliary output.  
Optional DV Board also one DV25 (IEEE-1394)  
The flexible outputs makes it easy to connect the HS-600 to external devices such as large screens, recorders, streaming and more - all at the same time
- Dual Picture-In-Picture function
- 17-inch high quality TFT LED Multi-View screen for each input, as well as Program & Preview Features include audio peak-meter; adjustments for brightness, contrast, colour saturation and backlight - ideal for outdoor use
- Built in RS-232 & GPI control interface allows you to control external devices
- Hot key functions, allow quick access to vital functions including fade to solid colour, instant key, and more
